

How incubators use ICT to improve collaboration with stakeholders?

Magdalena Jasińska

Maria Curie Skłodowska University

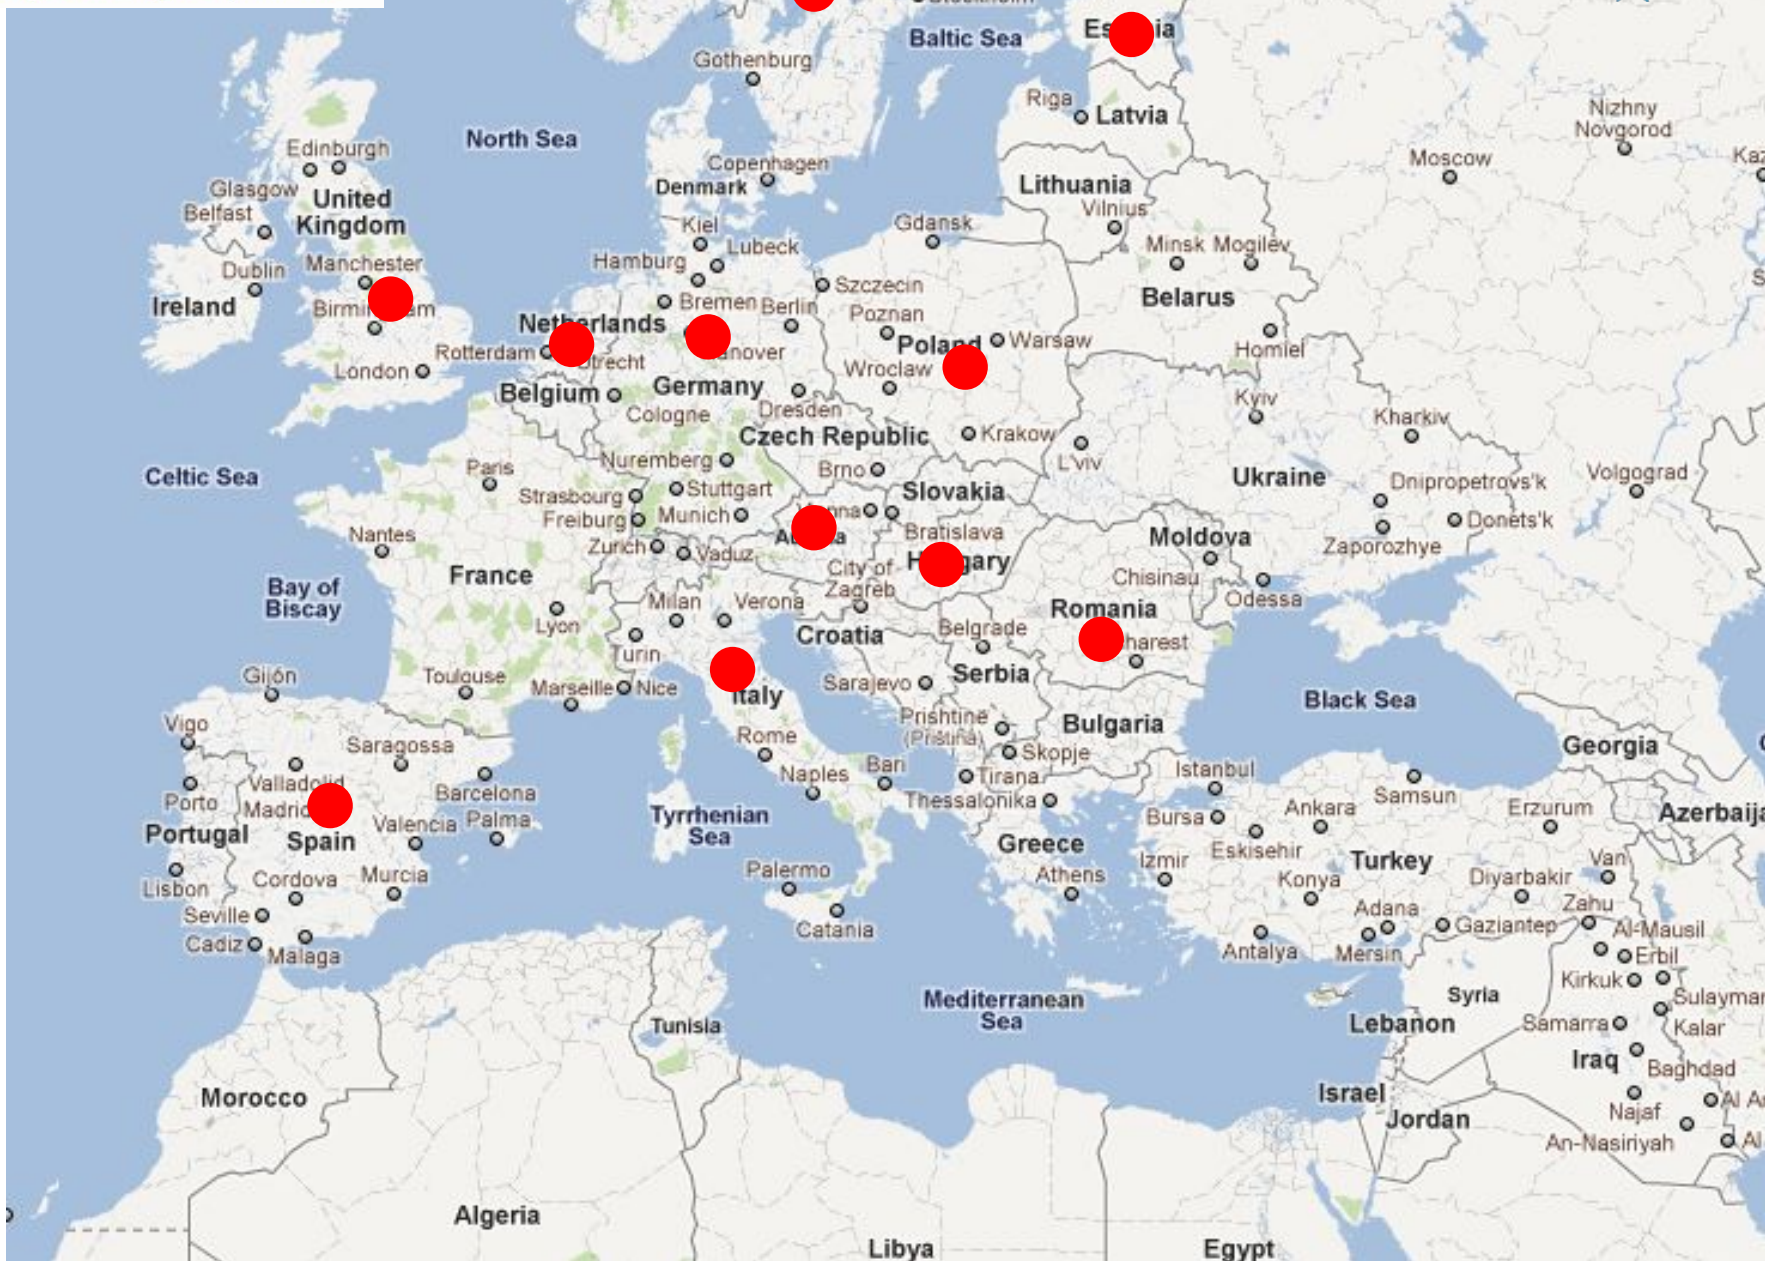

Lublin, Poland

Incubator

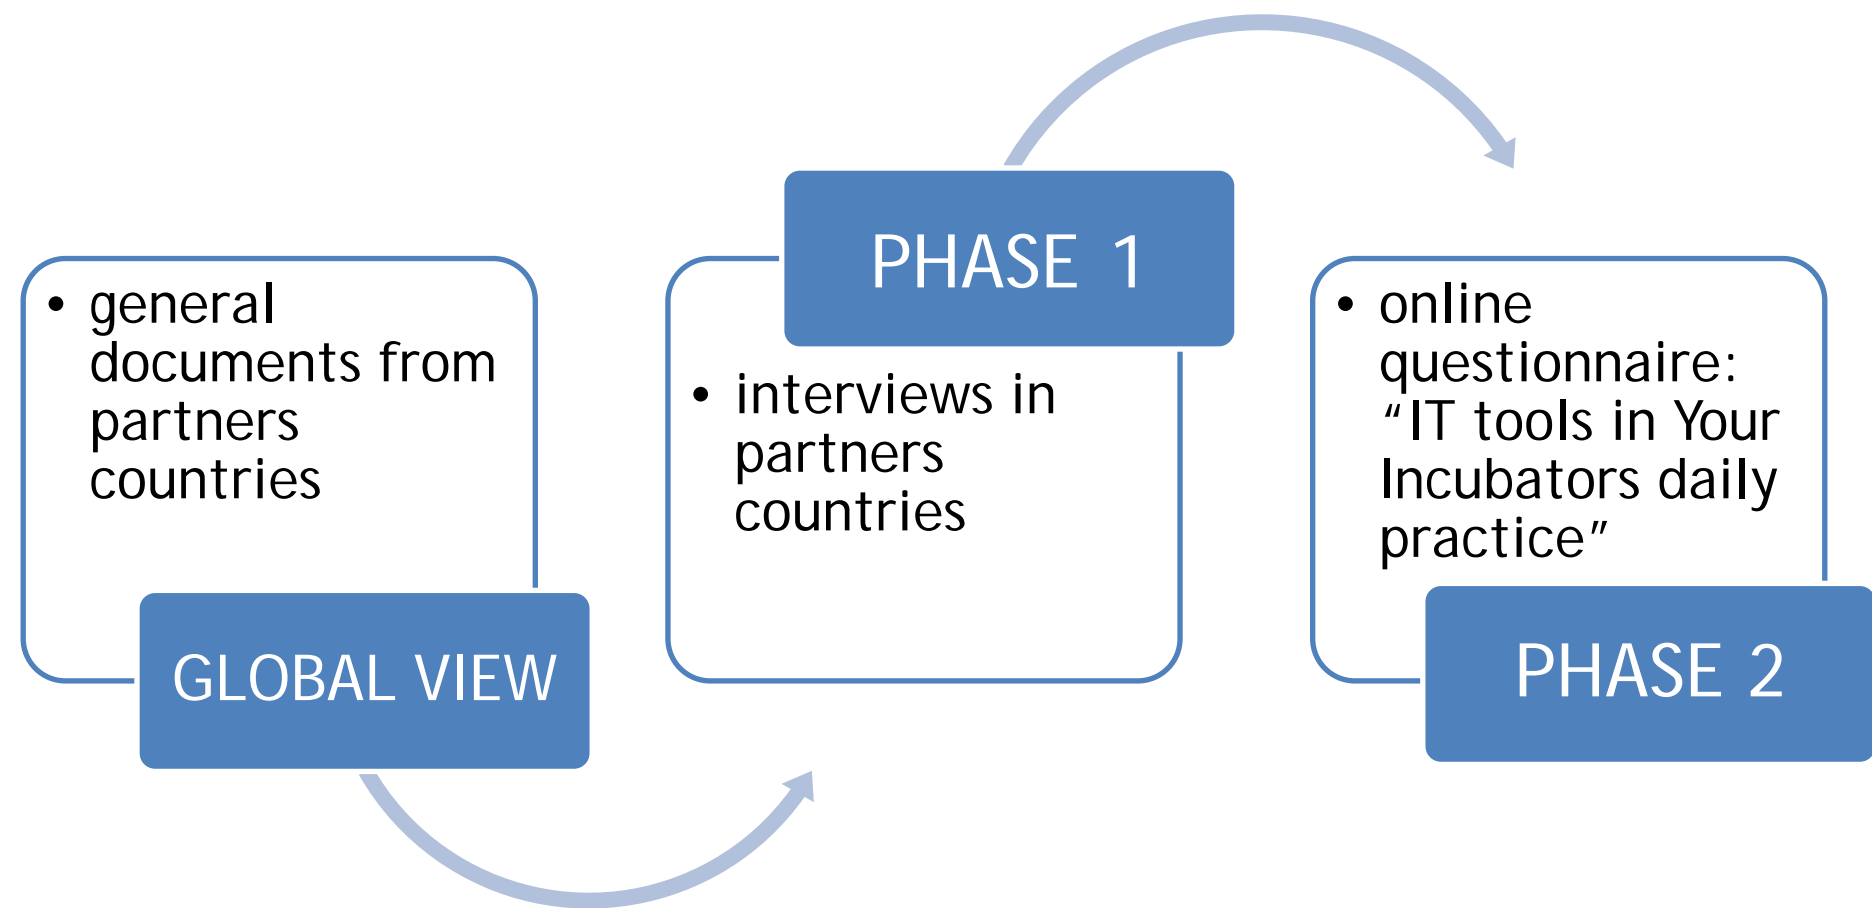

- physical space
- shared office facilities capital
- consulting
- coaching
- training
- finance and professional services
- networking connections
- information

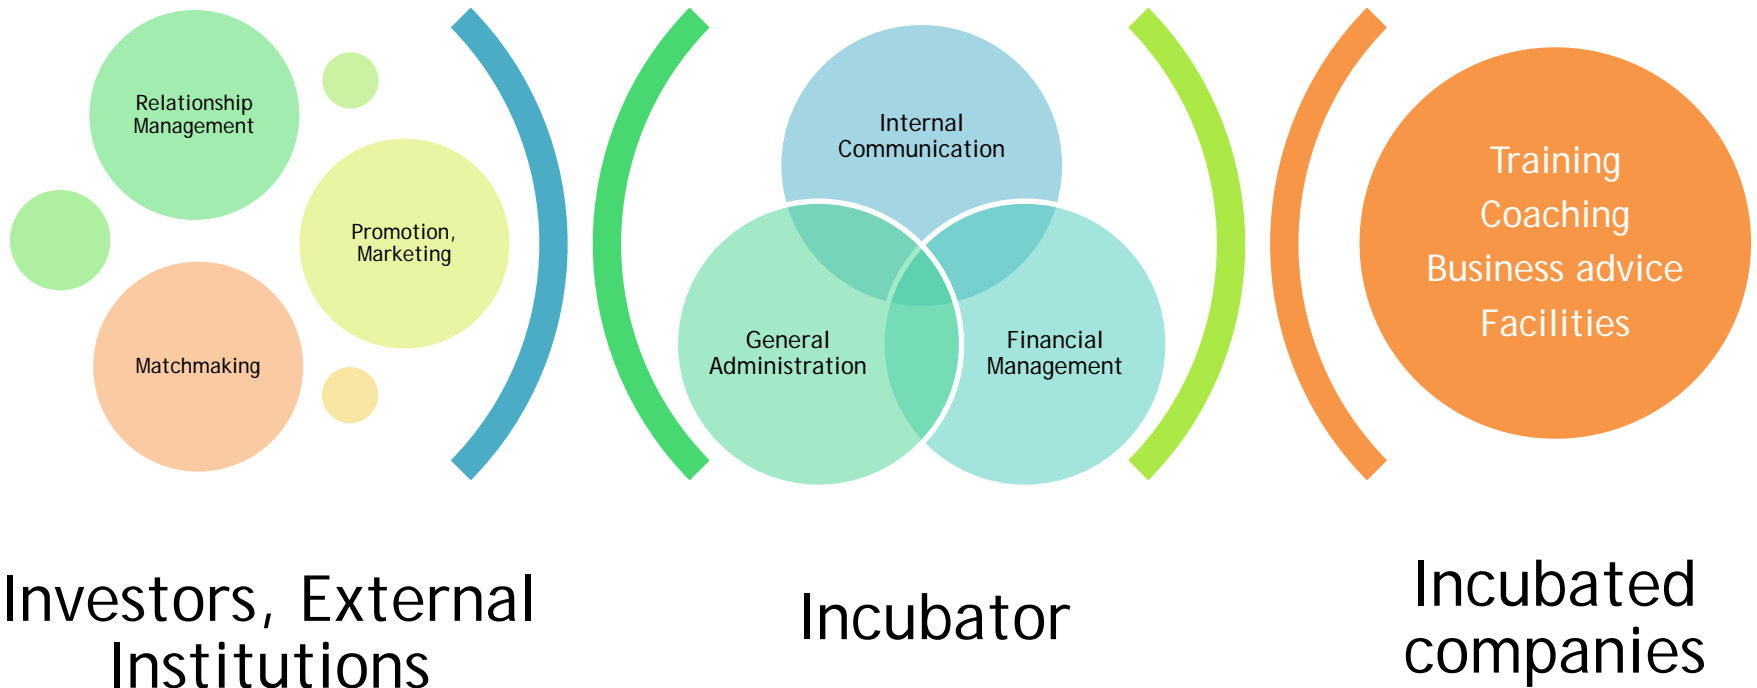

What about ICT?

Research in 3 steps

Incubator functional areas

Cross Border Virtual Incubator (CBVI)

IT tools in Your Incubators daily practice

The main objective of this survey is to identify the best practices of IT tools application to different areas of activity of incubators.

Filling in this survey should take no longer than 15 minutes and will significantly raise our knowledge of the best practices of organizations like Yours.

For more information about CBVI project, please, visit our website: <http://www.eadtu.eu/cbvi>

Thank you very much for Your effort in advance.

Internal communication and management

In this section we cover areas like general administration, internal communication, facilities and project management.

Management: accounting *

- We use an open-source, online system
- All the processes are outsourced - we use no dedicated systems
- We use mostly our own, custom solutions (eg. MS Excel)
- We use a standard, licensed out-of-the-box solution, tailored to our needs
- We use no system for this area, and don't plan to use it in the future
- We use no system for this area, but we plan to use it in the future
- I don't know which system we use (no information)
