

## UNINETTUNO with “FIEST” trains young Mediterranean movie-directors

The International Telematic University UNINETTUNO continues its mission on professional and academic training of the new Mediterranean generations, with the project “FIEST- Formation Internationale à l’écriture de séries TV”.

“FIEST” - funded by the European Commission and in partnership with COPEAM, RAI, FRANCE 2 and the Schools of Cinema of ALBA (Lebanon), ESAC (Tunisia) and ESAV (Morocco) - aims to train young students from Beirut, Tunis and Marrakech to write TV series.

UNINETTUNO organises all the distance learning activities including webinars and interactive sessions that will be realised on the e-learning platform of the university, one of the few in the world also available in Arabic.

“FIEST”, together with the project “À Première Vue” for young Mediterranean movie-directors, enriches UNINETTUNO’s activities in collaboration with the institutions and schools of the Arab countries in the Mediterranean Area.
