UNINETTUNO: New Double Degree with blended approach

On 27 January, **UNINETTUNO** and the **Université Catholique de Lille** signed the **Double Degree academic agreement** for the Master of Science in Business Management and Digital Technologies. The program will be proposed with an **innovative “blended” approach** combining some of the best European experiences in **online teaching in e-learning mode** (Uninettuno) and traditional (the Université Catholique de Lille); the first year will be in e-learning mode through the UNINETTUNO teaching model, while the second year will be in presence at the Campus of the Catholic University of Lille.
