GIF

Green Innovation in
the Fashion industry
management

PROJECT OVERVIEW

GIF OBJECTIVES

- To support the **European Green Deal** implementation, focusing on the **fashion industry** sector

- To raise awareness about the **environmental impact of the fashion industry**

- To deliver new strategies and **eco-friendly approaches**

- To provide **competences** and knowledge to encourage learners change behaviors and professional practices

- To train SME's **managers and workers in the Fashion Industry on sustainable** ways of production

TARGET GROUP

- VET sector, VET providers and industries in the fashion/textile field

- Young people and students of different educational levels

**Co-funded by
the European Union**

PROJECT RESULT 1: COMPETENCE FRAMEWORK DESIGN AND DEVELOPMENT

GIF Competence Framework will be complemented by annexes designed for boosting replicability, adoption and exploitation, and specifically:

- a User Guide (for educators, training providers and enterprise HRs), that will provide practical information and guidelines for implementing the GIF Competence Framework in education and training programs

- a set of Use Cases, that will provide reports about actual implementations performed during the GIF project

PROJECT RESULT 2: TRAINING KIT DESIGN, DEVELOPMENT AND TESTING

The **training kit** will be composed by:

- training contents for individual learning (videolessons, presentations, booklets, further readings, bibliographies and selection of relevant websites)

- training activities guides, providing examples of assignments and interactive activities such as collaborative project works, interactive classes, course scheduling and orchestration graphs

- assessment methodologies and criteria for certificate provision

KICK-OFF MEETING

On 19 May we held the online kick-off meeting of the European project GIF - Green Innovation in the Fashion Industry.

This project is led by **UNINETTUNO** and counts with a consortium formed by **FHM, Europartners, EFFEBI, IEF, DIMITRA** and **CNPCD.**

The purpose of this first meeting was to get to know the other participating organisations, to understand the objective of the project, and to establish the steps needed to implement the nest project activities.

NEXT STEPS

-The consortium is working on the GIF Competence Framework.
-Second partner meeting will be held in February 2023 in Germany hosted by FHM.
